

Micro-dermabrasion Pack 60g +60g ea

Brand: Fleur De Mer

Price From: \$81.00

Short Description

A non-surgical alternative to laser and chemical peels for instantly refining your skin. Aggressive peeling for amazing instant results. Not for very sensitive skin

Description

This is probably the most intensive and effective treatment available for instantly refining your skin at home or in your Beauty Salon. It is a soft, smooth cream with no granules and which contains Aluminium Oxide powder. When massaged briskly over your face it provides a very intense exfoliation (peeling) of your skin. Furthermore it stimulates the blood circulation providing oxygenation and resulting in an instantly beautifully textured and youthful looking appearance.

Simultaneously it polishes your new, visibly fresh and younger looking skin making it really luminous with a distinct glow.

Skin Problems including acne scarring, open pores, sun damage and permanently aged skin also respond well to microdermabrasion.

Even as you rinse the cream off your face you will instantly observe and feel...

- Skin that is smooth and incredibly soft and silky
- Skin that is noticeably younger and healthier looking

- A reduction in the appearance of fine lines, blemishes, prematurely aged and sun damaged skin, open pores and lots more.

If necessary you can now gently smooth in the **Post Microdermabrasion Soothing Gel** to soothe, cool and calm the skin and restore the natural pH balance.

Finally please don't forget your daily application of Fleur De Mer facila Sunblock SPF50+ every day. It comes in clear or tinted foundation creams.

YOU WILL EASILY NOTICE NOW THAT A COMPLEXION THAT LOOKED OLD AND DULL CAN BE TRANSFORMED INTO A COMPLEXION THAT LOOKES AND FEELS LIKE A ROSE PETAL.

CRODERMABRASION SKIN POLISH

A gentle, high tech alternative to laser and chemical peeling for instantly refining the skin. All skin types except very sensitive.

60ml tube + 60ml tube. Micro dermabrasion + post Hydrating & Soothing Gel in a double pack box

APPEARANCE AND PROPERTIES A soft smooth white cream with Aluminium Oxide which is used in Microdermabrasion machines. But not in the hard, sharp crystal form. In fact there are no granules at all. It therefore provides far less friction as it softly yet thoroughly and deeply exfoliates away unattractive dead skin cells on the surface of the skin. Simultaneously it polishes the new fresh and younger looking skin making it really luminous with a distinct glow.

KEY INGREDIENTS Aluminium Oxide: a unique exfoliant and polish which provides instantly in conjunction with the specially formulated base: ? a noticeably younger and healthier looking skin ? skin that is smooth, soft and silky ? renewal and refinement of skin ? a real and visible luminescence ? even a reduction in the appearance of fine lines and wrinkles, prematurely aged and sun damaged skin, pigmentations, open pores and lots more.

APPLICATION Ideal for a special occasion or once or twice weekly deepening on skin type. Test first on sensitive skin. Cleanse, dry then smooth polish in a visible thin layer over face and neck. Massage slowly but firmly with dry fingertips or hands for at least 1 minute even after polish has disappeared. With a more prolonged massage you can often notice heaps of dead skin cells falling from the skin. A true and remarkable microdermabrasion. Rinse with warm water and dry. Even as you rinse you will feel and see the new softness and smoothness of the skin. Now apply the Hydrating and Soothing Gel from the 2nd tube and SPF50+ Sunblock daily. No other beauty product other than microdermabrasion can deliver the same fabulous and instant look and feel to the skin.

CAUTION: Avoid eye area, very sensitive, inflamed, red or broken skin.
