

Clarifying Scrub Mask 50ml

Brand: Algologie

Price From: \$43.00

Short Description

Instant lightening (gommage)

Description

CLARIFYING SCRUB MASK (Masque Gommage)

for an instant lightening effect

APPEARANCE AND PROPERTIES

A thick white cream. The key ingredients listed below combined with the highly active buffing action of the cream eliminates dark residues in the superficial layers of the epidermis. Consequently the skin is lightened with an improved colour and texture. Titanium dioxide contributes to the whitening as well as the sun screening. A powerful anti-oxidant effect comes from the Tocopheryl Acetate while Allantoin and Bisobolol prevent any irritation from the buffing.

KEY INGREDIENTS

Titanium Dioxide: A very definite whitening effect on the skin. Also an effective sunscreen.

Mulberry Extract: A brightening effect on skin.

Ascophyllum Nodosum: Seaweed extract with all the richness and goodness of the sea.

Waltheria Indica Leaf Extract, Citric Acid and Ferulic Acid: AHA properties in shedding dead skin cells with pigmentations as well as ensuring the 28 day desquamation cycle

which brings fresh clear epidermal cells to the surface.

Unique Gommage (Scrub) Oil in Water Base: Scrubs away cells on the surface of the skin which contain brown pigmentations.

Allantoin and Bisabolol: Calming and soothing to the skin so necessary after scrubbing.

Tocopheryl Acetate: (Vitamin E) Powerful anti-oxidant. Reinforces the clarifying and anti-ageing properties

APPLICATION

Apply once or twice weekly on face, neck, décolletage or hands. Leave for 10 minutes. Then use a gentle rubbing motion up and down or in circles until the cream and exfoliated residues are all buffed away.

Avoid using on sensitive skin areas.
