

# TEENAGE SKIN HEALTH CHECK

**Does your Child's  
Skin need a check  
up?**

# School Holiday Skin Checks

Do not allow some harsh commercial products advertised by popular celebrities to ruin your teenagers skin! Have a Skin Therapist give you advice on the best management program for a Teenage Skin. Some children begin to show signs of skin disruption as young as 9 years of age. Do not wait for this to turn into a Major Skin Problem.

Intervention in the early stages of an oily skin imbalance allow us to manage oil flow, bacteria, and prevent scarring. Treat skin before it becomes a problem.

The use of some harsh commercial products can make a skin more prone to sun damage, and cause a reactive oiliness, a reliance on the harsh product, an inflammation in the skin which can lead to more bacteria, and the need for more intensive aggressive ingredients in the long term.

Avoid skin damage, and avoid problem skin by having the correct advice. This is also cost effective as some commercial products will be very expensive over 12 months.
