Brand: Fleur De Mer

Price From: \$64.00

Short Description

Very regenerating light anti-wrinkle cream. Totally absorbed, leaving no trace on skin at all. Ideal for hot, humid conditions

Description

LIGHT FLUID MOISTURISER with VITAMIN A

for all skin types

APPEARANCE AND PROPERTIES

A creamy white light textured cream ideal for humid conditions or younger people using a moisturiser for the first time. Rich in anti-oxidants and jojoba oil to nourish, hydrate and prevent the appearance of premature ageing. Leaves the skin soft and supple with no residue on the skin surface, making this an ideal make-up base. The inclusion of Vitamin A (Retinyl Palmitate) helps slow the aging process and improve the common problem of prematurely aging skin. The 0.1% concentration allows it to be used if necessary with the Vit A Serum (0.6%) with no problem.

KEY INGREDIENTS

Wheatgerm Oil: Vitamin E, antioxidant and nourishing.

Jojoba Oil: hydrating and lubricating. One of the most nourishing oils found in nature.

Aloe Vera: soothing and helps the skin retain moisture.

Vitamin A (Retinyl Palmitate): converts in the skin to the well known Retinoic Acid (Retin A). This is the only skin care ingredient that has been proven to improve the

appearance of wrinkles. It has genuine anti-ageing benefits in ensuring that skin cells function normally and not like older or damaged cells. Its anti-oxidant activity combines with that of Wheat Germ Oil to help skin cells stay healthy.

APPLICATION

Normal, combination and young skins. Apply to a cleansed skin morning and/or night. Great as a summer moisturiser.

NB: Don't use if pregnant
