

Hydra Regenerating Balm 50ml

Brand: Algologie

Price From: \$67.00

Short Description

A rich day or night cream for greater protection. Suitable for more mature and very dry skin

Description

REGENERATIVE CREAM Crème Règènèratrice

A rich cream which nourishes, moisturises and protects - for normal to dry or dehydrated skin

APPEARANCE AND PROPERTIES

A white oil based (water in oil) moisturiser with a thick creamy texture, the Regenerative Cream has a very high content of Vitamin A. Applied twice daily it provides the necessary ingredients for:

Hydration: Vitamin A reinforces the natural hydrolipic barrier of the skin. It increases and maintains hydration.

Protection: the Vitamin A is an anti oxidant and neutralises free radicals responsible for cellular ageing. It regulates and smoothes the skin as well.

Calming Effects: Ylang Ylang Essential Oils.

Treatment: for dry, flaky skin

The skin becomes moisturised and smoother, the complexion is rested. The skin is prepared to confront the daily aggressions. It can be used as a day cream for maximum protection especially in case of harsh weather eg intense cold winds.

KEY INGREDIENTS

Adjusted concentrations of the 3 ingredients creating the exclusive natural Algo3

Complex: Chondrus Crispus: The seaweed extract providing proven rapid hydration. It also increases the water concentration in the epidermis. Gulf Stream Seawater: Pure and fresh with lots of natural vitamins and minerals to nourish and remineralise the skin.

Alaria Esculenta: Another seaweed extract with anti-oxidant properties to protect against free radicals.

Water in Oil Emulsion: To provide a rich, hydrating textured cream

Retinyl Palmitate (Vitamin A): Gives the skin moisture and suppleness, revitalises skin.

Anti oxidant. Nourishes dry skin.

APPLICATION

Apply once or twice daily with a light massage motion

Our advice ~ the Regenerative Cream can be used in massages (straight or mixed with Algae Maceration or essential oil) during a face or body treatment.

Healing hint ~ in the case of eczema, apply and absorb a thin layer of Centella Asiatica and apply a thin layer of Regenerative Cream over top, day and night - excellent results.
