

HYDRA Tender Cream 50ml

Brand: Algologie

Price From: \$69.00

Short Description

Intensive, quick hydration for dry, thirsty skin. A light cream for hot climates

Description

MOISTURISING TENDER CREAM

For normal skin or hot climates

APPEARANCE: A light blue cream with soft light texture

PROPERTIES - ALL CREAMS

All creams have specific textures designed for the 3 skin types. All will rapidly and intensely hydrate, moisturize and nourish even the driest skins. The skin with each cream is left more comfortable, softer and more beautiful. Each acts on 3 levels by increasing the volume of water in the epidermis, limiting its evaporation and encouraging water diffusion in the epidermis.

KEY INGREDIENTS FOR ALL 3:-

Codium: (green sea plant extract). Acts like an element of NMF (Natural Moisturising Factor) in our skin thus increasing its moisture reserves.

Christe Marine: (seaside plant). Reinforces the hydro-lipidic (water-oil) film thus limiting water evaporation.

Salicornia: (coastal plant). Improves water diffusion in the epidermis using aquaporins ie

irrigation channels of the epidermis cells.

Vitamin F: An essential fatty acid to nourish skin.

Hyaluronic Acid: Humectant to maintain and attract moisture.

Aloe Vera and Cucumber: Soothing, cooling and comforting

Algo3 Complex: Containing Gulf Stream Seawater to re-mineralise skin, Chondrus

Crispus a seaweed to hydrate skin and Alaria Excelenta seaweed to protect from free radicals

APPLICATION

Apply morning and evening to face and neck.
