Reduces redness while moisturising

Description

TRIPLE C CREAM (Crème Triple C)

All skin types particularly sensitive, red and rosacea

APPEARANCE AND PROPERTIES

A soft light yellow cream. The Triple C Cream has been formulated for all skin types especially sensitive and red skin with a tendency to be normal to dry with an uneven complexion. This a complete cream that protects, softens, and purifies. It helps to create a clear complexion, soothing redness, toning and refreshing the skin with the presence of Hibiscus, Couperose Complex, Calendula and Allantoin. The Triple C Cream helps the skin to restore a uniform complexion well hydrated and nourished.

KEY INGREDIENTS

Horse Chestnut: Anti-inflammatory with the ability to help reduce the signs of fragile or broken capillaries, redness, rosacea

Hibiscus (Red Sorrel) Extract: Used for its freshening, purifying and soothing properties, it is equally recommended for its anti-oxidant and tonifying qualities.

Calendula (Marigold) Extract: Soothing and softening

Fucus Extract: Stimulates blood circulation with emollient and protective actions.

Titanium Dioxide: A white pigment providing UV protection.

Allantoin: Soothing cutaneous irritations.

Couperose Complex: A combination of Horse Chestnut, Red Vine, Ginkgo Biloba and Melilot making the cream perfectly suitable for sensitive skin or skin with redness, couperose, etc.

Urea: Exceptional hydrating and moisturising. A component of the NMF.

APPLICATION

For all skin types and ideal for fragile and couperose skins. Apply directly to a clean skin in the morning or over the day cream or serum. Can be repeated at night.
